NOTICES

GOVERNMENT MOTIONS

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
17. *Mr. Nixon—Resolution—That the Order of the House of Thursday, June 16th, 1983, as amended on Friday, November 30th, 1984, and Friday, July 5th, 1985, authorizing and prescribing the Terms of Reference of the Commission to Redistribute the Ontario Electoral Districts be amended by striking out the word “thirty” in the tenth line of the tenth paragraph thereof and substituting “sixty” therefor, so that the paragraph will read as follows:*

That, if within the first eight sitting days of the 1985 Session of the Legislative Assembly, an objection in writing signed by not less than ten Members of the Assembly, in the form of a motion for consideration by the Assembly, is filed with the Clerk of the House, specifying the provisions of the Report objected to and the reasons for the objection, the Assembly shall, within the next fifteen sitting days, or such additional number of days as the Assembly may order, take up the motion and consider the matter of the objection; and thereafter, the Report shall be referred back to the Commission by the Speaker, together with a copy of the objection and of the Debates of the Assembly with respect thereto for consideration by the Commission, having regard to the objection; within *sixty* days after the day the Report of the Commission is referred back to it, the Commission shall consider the matter of the objection and shall dispose of such objection and forthwith upon the disposition thereof a certified copy of the Report of the Commission, with or without amendment, shall be returned by the Commission to the Speaker.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
 31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
 32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
 33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated Thursday, January 30, 1986.*

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 22

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier.*

Ballot Item No. 27

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

 17. *Debated January 24, 1986.*

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 15

Ms. Bryden—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *To be debated Thursday, January 30, 1986.*

Ballot Item No. 16

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated Thursday, January 30, 1986.*

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 20

Mr. Andrewes—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters. *To be debated Thursday, February 13, 1986.*

Ballot Item No. 22

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier.*

Ballot Item No. 27

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

NOTICES

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
 35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Friday will appear on each day of the following week.)

207. *Mr. Philip*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet inform the House of the total cost, such as construction, fixtures and all other costs including studies which may have been undertaken, to develop the restaurant in the Ontario Pavilion at Expo '86. How many other restaurants of similar calibre are on the Expo Site. What is the projected expenditure per visitor per day at Expo '86. Would the Minister table any feasibility studies done concerning the restaurant. Would the Minister table what the expected operating cost will be. Would the Minister inform the House of the total projected revenue which is expected to be earned by the restaurant. *January 24, 1986.*
208. *Mr. Swart*—Enquiry of the Ministry—Will the Minister of Consumer and Commercial Relations instruct the Superintendent of Insurance for Ontario to revise the format of his annual report to require that losses and loss adjustment expenses be separately recorded in the provincial summary table of automobile insurance experience in Ontario. *January 28, 1986.*

NOTICES

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Friday will appear on each day of the following week.)

207. *Mr. Philip*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet inform the House of the total cost, such as construction, fixtures and all other costs including studies which may have been undertaken, to develop the restaurant in the Ontario Pavilion at Expo '86. How many other restaurants of similar calibre are on the Expo Site. What is the projected expenditure per visitor per day at Expo '86. Would the Minister table any feasibility studies done concerning the restaurant. Would the Minister table what the expected operating cost will be. Would the Minister inform the House of the total projected revenue which is expected to be earned by the restaurant. *January 24, 1986.*
208. *Mr. Swart*—Enquiry of the Ministry—Will the Minister of Consumer and Commercial Relations instruct the Superintendent of Insurance for Ontario to revise the format of his annual report to require that losses and loss adjustment expenses be separately recorded in the provincial summary table of automobile insurance experience in Ontario. *January 28, 1986.*
209. *Mr. Shymko*—Enquiry of the Ministry—Would the Premier provide all background material which led to the appointment of the former New Democratic Party Chairman of the Toronto Board of Education, Penny Moss, to the Ontario Council of Regents. Would the Premier provide a list of all candidates considered for the position, their qualifications and resumes. What was the process in making the final decision. *January 29, 1986.*
210. *Mr. Shymko*—Enquiry of the Ministry—Would the Premier provide the House with information of any costs incurred in travel beyond Ontario's borders for himself and his personal staff and administrative staff, Parliamentary Assistants and their staff, and other Government members and their staff, and any other persons, since his appointment on June 26, 1985. *January 29, 1986.*
211. *Mr. Yakabuski*—Enquiry of the Ministry—Will the Premier provide all background material which led to the employment with the Ontario Energy Board at \$55,000 per year of former Scarborough Liberal ex-alderman Joe DeKort who ran unsuccessfully against Mayor Gus Harris of Scarborough. How was the job advertised. Would the Premier provide a list of all candidates considered for the job, their qualifications and resumes. What is the process in making the final selection. *January 29, 1986.*
212. *Mr. Harris*—Enquiry of the Ministry—Would the Premier advise the House what was the total cost of the report commissioned from U.S. Consultants which stated that 281,000 Ontario jobs were vulnerable by a free-trade agreement with the United States. If the free trade talks fail to materialize,

what would be the effect of the 300 protectionists trade bills before the U.S. Congress, if passed, on Ontario exports to the U.S.A. Please table any studies that have been done, indicating how many Ontario jobs would be in jeopardy. *January 29, 1986.*

213. *Mr. Cuvatz*—Enquiry of the Ministry—Would the Premier please provide the following details of the October 1985 appointment of Don Stevenson to a newly created post as “Ontario’s Man in Quebec”: present salary; terms of reference; to whom does he report; benefits; budget; number of support staff; expenses to date, including entertainment of elected and non-elected Quebec officials; location—Toronto, Ottawa or Quebec City. *January 29, 1986.*
214. *Mr. Pollock*—Enquiry of the Ministry—Will the Premier provide to the House all the background material of the appointment of Doris Anderson, a defeated Federal Liberal candidate, as one of two non-lawyer members of the Ontario Judicial Council. Specifically how many applicants were considered for this position. What is the remuneration. For what length of time is the appointment. *January 29, 1986.*
215. *Mr. Rowe*—Enquiry of the Ministry—Would the Premier provide the cost of having the regular weekly Cabinet meeting moved to Timmins. Please provide a list of all who attended the Cabinet meeting, ministers and staff, and the costs involved for meals, local travel costs and accommodation. By what mode of transportation did each minister and staff arrive in Timmins. Please provide as well a summary of the complete cost of all additional expenses related to the trips taken by Ministers and others before and after the Cabinet meeting, specify what type of aircraft was used, and provide detailed itineraries for those trips, including any Liberal Party events. *January 29, 1986.*
216. *Mr. Leluk*—Enquiry of the Ministry—Would the Premier identify all persons who accompanied him to the recent opening of the Stratford Festival Tour in Hollywood, California. Would he itemize all expenses incurred for travel, itemize the cost of food, entertainment, limousines, miscellaneous expenses, and identify the budgetary source for expenses. Would the Premier identify all other Ministers in attendance, their staff, provincial officials, spouses, and others who attended with their itemized expenses. What was the total cost of the dinner at the Le St. Germain restaurant. Please provide a list of the 96 guests who attended. What benefits were derived by Ontario by this promotion. How many U.S. film and television productions have come to Ontario as a result. If there were benefits, would the Premier identify the firms and the extent of any such benefits. *January 29, 1986.*
217. *Mr. Sheppard*—Enquiry of the Ministry—Would the Premier inform the House of the following details of the three executive positions that were advertised in the Topical magazine, namely: (a) Executive Co-ordinator, Justice Policy; (b) Executive Co-ordinator for Economics; and (c) Executive Co-ordinator for the Social Development Field. How many applicants applied. How many were interviewed. Please provide names, their qualifications and the final successful applicants. Where are their offices to be located. How much support staff will be provided. Please provide their job

description, along with their office budgets. To whom will each be responsible. Please state salaries and all other benefits. How long are their employment contracts. What kind of severance pay provisions were made. *January 29, 1986.*

218. *Mr. Harris*—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology provide information, studies or background materials on Canada's softwood lumber exports to the United States. If no agreement is reached on softwood lumber exports and the U.S. protectionist bills are implemented, how many jobs would it cost in Ontario's forest industry. How many jobs would it cost in Ontario's paper industry. *January 29, 1986.*
219. *Mr. Johnson* (Wellington-Dufferin-Peel)—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology provide an explanation as to why Ontario computer servicemen have been denied entry into the United States to service computers built in Canada and sold to United States customers. How can we sell Ontario built computers to American companies if they cannot provide computer service. Please table any action your Government is taking to rectify this situation. *January 29, 1986.*
220. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services list all projects funded directly by the Province, or indirectly, through hospitals, universities, municipal governments or any other organization funded in whole or in part by the Government of Ontario, in which the Ellis-Don Construction Company of London, Ontario is participating. *January 29, 1986.*
221. *Mr. Bennett*—Enquiry of the Ministry—Would the Minister of Government Services table in the House all Agency of Record placements since July 1, 1985, ongoing and special for all Ministries, including the specific amount spent for each placement as well as the total amount spent. *January 29, 1986.*
222. *Mr. Hennessy*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation please indicate whether the following advertising contracts have been cancelled and what penalties were incurred by the government for cancellation. Foster Advertising:—Government Information/Communication Program (expiring March 31, 1986);—Ontario Place Corporation advertising contract (expiry September 30, 1987); Camp Associates—Tourism Marketing Branch contract (expiry June 30, 1988);—St. Lawrence Parks Commission communications services contract (expiry March 31, 1986);—Metro Toronto Convention Centre Corporation communications services contract (expiry March 31, 1988); Base Brown & Partners—Tourism consumer publications contract (expiry March 31, 1987); Reinhold Stoll—German publications and promotions contract (expiry March 31, 1986); Bowen and Binstock Advertising—Travel trade and convention publications contract (expiry March 31, 1987). *January 29, 1986.*
223. *Miss Stephenson*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet list all those individuals who have been removed from their employment in the public service of Ontario since July 1, 1985.

(a) the position from which the individual was removed; (b) the individual's present position; (c) the reason for removal, dismissal or redeployment; (d) the present incumbent of the position; (e) the previous employment of the present incumbent; (f) the recruitment procedures employed to choose the present incumbent. *January 29, 1986.*

224. *Mr. O'Connor*—Enquiry of the Ministry—Would the Minister of Housing support the acquisition of a parcel of land, owned by O.H.C., adjacent to the Oakville Senior Citizens' Residence, by the Town of Oakville at a nominal cost, provided the Town absorbs any and all costs to develop a park. Will the Minister follow through on the initiative of the former government, wherein the former Minister of Municipal Affairs and Housing, in a letter dated May 31, 1985, advised that he had directed the Ontario Housing Corporation to discuss this proposal with the Town, with a view to negotiating an acceptable and appropriate settlement, and assure this House that this land will become a park for seniors. *January 29, 1986.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 15

Ms. Bryden—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *To be debated Thursday, January 30, 1986.*

Ballot Item No. 16

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated Thursday, January 30, 1986.*

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 19

Mr. Knight—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary. *To be debated Thursday, February 13, 1986.*

Ballot Item No. 20

Mr. Andrewes—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters. *To be debated Thursday, February 13, 1986.*

Ballot Item No. 22

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier.*

Ballot Item No. 27

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

NOTICES

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Friday will appear on each day of the following week.)

207. *Mr. Philip*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet inform the House of the total cost, such as construction, fixtures and all other costs including studies which may have been undertaken, to develop the restaurant in the Ontario Pavilion at Expo '86. How many other restaurants of similar calibre are on the Expo Site. What is the projected expenditure per visitor per day at Expo '86. Would the Minister table any feasibility studies done concerning the restaurant. Would the Minister table what the expected operating cost will be. Would the Minister inform the House of the total projected revenue which is expected to be earned by the restaurant. *January 24, 1986.*

208. *Mr. Swart*—Enquiry of the Ministry—Will the Minister of Consumer and Commercial Relations instruct the Superintendent of Insurance for Ontario to revise the format of his annual report to require that losses and loss adjustment expenses be separately recorded in the provincial summary table of automobile insurance experience in Ontario. *January 28, 1986.*

209. *Mr. Shymko*—Enquiry of the Ministry—Would the Premier provide all background material which led to the appointment of the former New Democratic Party Chairman of the Toronto Board of Education, Penny Moss, to the Ontario Council of Regents. Would the Premier provide a list of all candidates considered for the position, their qualifications and resumes. What was the process in making the final decision. *January 29, 1986.*

210. *Mr. Shymko*—Enquiry of the Ministry—Would the Premier provide the House with information of any costs incurred in travel beyond Ontario's borders for himself and his personal staff and administrative staff, Parliamentary Assistants and their staff, and other Government members and their staff, and any other persons, since his appointment on June 26, 1985. *January 29, 1986.*

211. *Mr. Yakubuski*—Enquiry of the Ministry—Will the Premier provide all background material which led to the employment with the Ontario Energy Board at \$55,000 per year of former Scarborough Liberal ex-alderman Joe DeKort who ran unsuccessfully against Mayor Gus Harris of Scarborough. How was the job advertised. Would the Premier provide a list of all candidates considered for the job, their qualifications and resumes. What is the process in making the final selection. *January 29, 1986.*

212. *Mr. Harris*—Enquiry of the Ministry—Would the Premier advise the House what was the total cost of the report commissioned from U.S. Consultants which stated that 281,000 Ontario jobs were vulnerable by a free-trade agreement with the United States. If the free trade talks fail to materialize,

what would be the effect of the 300 protectionists trade bills before the U.S. Congress, if passed, on Ontario exports to the U.S.A. Please table any studies that have been done, indicating how many Ontario jobs would be in jeopardy. *January 29, 1986.*

213. *Mr. Curreatz*—Enquiry of the Ministry—Would the Premier please provide the following details of the October 1985 appointment of Don Stevenson to a newly created post as “Ontario’s Man in Quebec”: present salary; terms of reference; to whom does he report; benefits; budget; number of support staff; expenses to date, including entertainment of elected and non-elected Quebec officials; location—Toronto, Ottawa or Quebec City. *January 29, 1986.*
214. *Mr. Pollock*—Enquiry of the Ministry—Will the Premier provide to the House all the background material of the appointment of Doris Anderson, a defeated Federal Liberal candidate, as one of two non-lawyer members of the Ontario Judicial Council. Specifically how many applicants were considered for this position. What is the remuneration. For what length of time is the appointment. *January 29, 1986.*
215. *Mr. Rowe*—Enquiry of the Ministry—Would the Premier provide the cost of having the regular weekly Cabinet meeting moved to Timmins. Please provide a list of all who attended the Cabinet meeting, ministers and staff, and the costs involved for meals, local travel costs and accommodation. By what mode of transportation did each minister and staff arrive in Timmins. Please provide as well a summary of the complete cost of all additional expenses related to the trips taken by Ministers and others before and after the Cabinet meeting, specify what type of aircraft was used, and provide detailed itineraries for those trips, including any Liberal Party events. *January 29, 1986.*
216. *Mr. Leluk*—Enquiry of the Ministry—Would the Premier identify all persons who accompanied him to the recent opening of the Stratford Festival Tour in Hollywood, California. Would he itemize all expenses incurred for travel, itemize the cost of food, entertainment, limousines, miscellaneous expenses, and identify the budgetary source for expenses. Would the Premier identify all other Ministers in attendance, their staff, provincial officials, spouses, and others who attended with their itemized expenses. What was the total cost of the dinner at the Le St. Germain restaurant. Please provide a list of the 96 guests who attended. What benefits were derived by Ontario by this promotion. How many U.S. film and television productions have come to Ontario as a result. If there were benefits, would the Premier identify the firms and the extent of any such benefits. *January 29, 1986.*
217. *Mr. Sheppard*—Enquiry of the Ministry—Would the Premier inform the House of the following details of the three executive positions that were advertised in the Topical magazine, namely: (a) Executive Co-ordinator, Justice Policy; (b) Executive Co-ordinator for Economics; and (c) Executive Co-ordinator for the Social Development Field. How many applicants applied. How many were interviewed. Please provide names, their qualifications and the final successful applicants. Where are their offices to be located. How much support staff will be provided. Please provide their job

description, along with their office budgets. To whom will each be responsible. Please state salaries and all other benefits. How long are their employment contracts. What kind of severance pay provisions were made. *January 29, 1986.*

218. *Mr. Harris*—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology provide information, studies or background materials on Canada's softwood lumber exports to the United States. If no agreement is reached on softwood lumber exports and the U.S. protectionist bills are implemented, how many jobs would it cost in Ontario's forest industry. How many jobs would it cost in Ontario's paper industry. *January 29, 1986.*
219. *Mr. Johnson* (Wellington-Dufferin-Peel)—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology provide an explanation as to why Ontario computer servicemen have been denied entry into the United States to service computers built in Canada and sold to United States customers. How can we sell Ontario built computers to American companies if they cannot provide computer service. Please table any action your Government is taking to rectify this situation. *January 29, 1986.*
220. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services list all projects funded directly by the Province, or indirectly, through hospitals, universities, municipal governments or any other organization funded in whole or in part by the Government of Ontario, in which the Ellis-Don Construction Company of London, Ontario is participating. *January 29, 1986.*
221. *Mr. Bennett*—Enquiry of the Ministry—Would the Minister of Government Services table in the House all Agency of Record placements since July 1, 1985, ongoing and special for all Ministries, including the specific amount spent for each placement as well as the total amount spent. *January 29, 1986.*
222. *Mr. Hennessy*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation please indicate whether the following advertising contracts have been cancelled and what penalties were incurred by the government for cancellation. Foster Advertising—Government Information/Communication Program (expiring March 31, 1986);—Ontario Place Corporation advertising contract (expiry September 30, 1987); Camp Associates—Tourism Marketing Branch contract (expiry June 30, 1988);—St. Lawrence Parks Commission communications services contract (expiry March 31, 1986);—Metro Toronto Convention Centre Corporation communications services contract (expiry March 31, 1988); Base Brown & Partners—Tourism consumer publications contract (expiry March 31, 1987); Reinhold Stoll—German publications and promotions contract (expiry March 31, 1986); Bowen and Binstock Advertising—Travel trade and convention publications contract (expiry March 31, 1987). *January 29, 1986.*
223. *Miss Stephenson*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet list all those individuals who have been removed from their employment in the public service of Ontario since July 1, 1985.

(a) the position from which the individual was removed; (b) the individual's present position; (c) the reason for removal, dismissal or redeployment; (d) the present incumbent of the position; (e) the previous employment of the present incumbent; (f) the recruitment procedures employed to choose the present incumbent. *January 29, 1986.*

224. *Mr. O'Connor*—Enquiry of the Ministry—Would the Minister of Housing support the acquisition of a parcel of land, owned by O.H.C., adjacent to the Oakville Senior Citizens' Residence, by the Town of Oakville at a nominal cost, provided the Town absorbs any and all costs to develop a park. Will the Minister follow through on the initiative of the former government, wherein the former Minister of Municipal Affairs and Housing, in a letter dated May 31, 1985, advised that he had directed the Ontario Housing Corporation to discuss this proposal with the Town, with a view to negotiating an acceptable and appropriate settlement, and assure this House that this land will become a park for seniors. *January 29, 1986.*

NOTICES

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Friday will appear on each day of the following week.)

207. *Mr. Philip*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet inform the House of the total cost, such as construction, fixtures and all other costs including studies which may have been undertaken, to develop the restaurant in the Ontario Pavilion at Expo '86. How many other restaurants of similar calibre are on the Expo Site. What is the projected expenditure per visitor per day at Expo '86. Would the Minister table any feasibility studies done concerning the restaurant. Would the Minister table what the expected operating cost will be. Would the Minister inform the House of the total projected revenue which is expected to be earned by the restaurant. *January 24, 1986.*

208. *Mr. Swart*—Enquiry of the Ministry—Will the Minister of Consumer and Commercial Relations instruct the Superintendent of Insurance for Ontario to revise the format of his annual report to require that losses and loss adjustment expenses be separately recorded in the provincial summary table of automobile insurance experience in Ontario. *January 28, 1986.*

209. *Mr. Shymko*—Enquiry of the Ministry—Would the Premier provide all background material which led to the appointment of the former New Democratic Party Chairman of the Toronto Board of Education, Penny Moss, to the Ontario Council of Regents. Would the Premier provide a list of all candidates considered for the position, their qualifications and resumes. What was the process in making the final decision. *January 29, 1986.*

210. *Mr. Shymko*—Enquiry of the Ministry—Would the Premier provide the House with information of any costs incurred in travel beyond Ontario's borders for himself and his personal staff and administrative staff, Parliamentary Assistants and their staff, and other Government members and their staff, and any other persons, since his appointment on June 26, 1985. *January 29, 1986.*

211. *Mr. Yakubuski*—Enquiry of the Ministry—Will the Premier provide all background material which led to the employment with the Ontario Energy Board at \$55,000 per year of former Scarborough Liberal ex-alderman Joe DeKort who ran unsuccessfully against Mayor Gus Harris of Scarborough. How was the job advertised. Would the Premier provide a list of all candidates considered for the job, their qualifications and resumes. What is the process in making the final selection. *January 29, 1986.*

212. *Mr. Harris*—Enquiry of the Ministry—Would the Premier advise the House what was the total cost of the report commissioned from U.S. Consultants which stated that 281,000 Ontario jobs were vulnerable by a free-trade agreement with the United States. If the free trade talks fail to materialize,

what would be the effect of the 300 protectionists trade bills before the U.S. Congress, if passed, on Ontario exports to the U.S.A. Please table any studies that have been done, indicating how many Ontario jobs would be in jeopardy. *January 29, 1986.*

213. *Mr. Cureatz*—Enquiry of the Ministry—Would the Premier please provide the following details of the October 1985 appointment of Don Stevenson to a newly created post as “Ontario’s Man in Quebec”: present salary; terms of reference; to whom does he report; benefits; budget; number of support staff; expenses to date, including entertainment of elected and non-elected Quebec officials; location—Toronto, Ottawa or Quebec City. *January 29, 1986.*
214. *Mr. Pollock*—Enquiry of the Ministry—Will the Premier provide to the House all the background material of the appointment of Doris Anderson, a defeated Federal Liberal candidate, as one of two non-lawyer members of the Ontario Judicial Council. Specifically how many applicants were considered for this position. What is the remuneration. For what length of time is the appointment. *January 29, 1986.*
215. *Mr. Rowe*—Enquiry of the Ministry—Would the Premier provide the cost of having the regular weekly Cabinet meeting moved to Timmins. Please provide a list of all who attended the Cabinet meeting, ministers and staff, and the costs involved for meals, local travel costs and accommodation. By what mode of transportation did each minister and staff arrive in Timmins. Please provide as well a summary of the complete cost of all additional expenses related to the trips taken by Ministers and others before and after the Cabinet meeting, specify what type of aircraft was used, and provide detailed itineraries for those trips, including any Liberal Party events. *January 29, 1986.*
216. *Mr. Leluk*—Enquiry of the Ministry—Would the Premier identify all persons who accompanied him to the recent opening of the Stratford Festival Tour in Hollywood, California. Would he itemize all expenses incurred for travel, itemize the cost of food, entertainment, limousines, miscellaneous expenses, and identify the budgetary source for expenses. Would the Premier identify all other Ministers in attendance, their staff, provincial officials, spouses, and others who attended with their itemized expenses. What was the total cost of the dinner at the Le St. Germain restaurant. Please provide a list of the 96 guests who attended. What benefits were derived by Ontario by this promotion. How many U.S. film and television productions have come to Ontario as a result. If there were benefits, would the Premier identify the firms and the extent of any such benefits. *January 29, 1986.*
217. *Mr. Sheppard*—Enquiry of the Ministry—Would the Premier inform the House of the following details of the three executive positions that were advertised in the Topical magazine, namely: (a) Executive Co-ordinator, Justice Policy; (b) Executive Co-ordinator for Economics; and (c) Executive Co-ordinator for the Social Development Field. How many applicants applied. How many were interviewed. Please provide names, their qualifications and the final successful applicants. Where are their offices to be located. How much support staff will be provided. Please provide their job

description, along with their office budgets. To whom will each be responsible. Please state salaries and all other benefits. How long are their employment contracts. What kind of severance pay provisions were made. *January 29, 1986.*

218. *Mr. Harris*—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology provide information, studies or background materials on Canada's softwood lumber exports to the United States. If no agreement is reached on softwood lumber exports and the U.S. protectionist bills are implemented, how many jobs would it cost in Ontario's forest industry. How many jobs would it cost in Ontario's paper industry. *January 29, 1986.*
219. *Mr. Johnson* (Wellington-Dufferin-Peel)—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology provide an explanation as to why Ontario computer servicemen have been denied entry into the United States to service computers built in Canada and sold to United States customers. How can we sell Ontario built computers to American companies if they cannot provide computer service. Please table any action your Government is taking to rectify this situation. *January 29, 1986.*
220. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services list all projects funded directly by the Province, or indirectly, through hospitals, universities, municipal governments or any other organization funded in whole or in part by the Government of Ontario, in which the Ellis-Don Construction Company of London, Ontario is participating. *January 29, 1986.*
221. *Mr. Bennett*—Enquiry of the Ministry—Would the Minister of Government Services table in the House all Agency of Record placements since July 1, 1985, ongoing and special for all Ministries, including the specific amount spent for each placement as well as the total amount spent. *January 29, 1986.*
222. *Mr. Hennessy*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation please indicate whether the following advertising contracts have been cancelled and what penalties were incurred by the government for cancellation. Foster Advertising:—Government Information/Communication Program (expiring March 31, 1986);—Ontario Place Corporation advertising contract (expiry September 30, 1987); Camp Associates—Tourism Marketing Branch contract (expiry June 30, 1988);—St. Lawrence Parks Commission communications services contract (expiry March 31, 1986);—Metro Toronto Convention Centre Corporation communications services contract (expiry March 31, 1988); Base Brown & Partners—Tourism consumer publications contract (expiry March 31, 1987); Reinhold Stoll—German publications and promotions contract (expiry March 31, 1986); Bowen and Binstock Advertising- Travel trade and convention publications contract (expiry March 31, 1987). *January 29, 1986.*
223. *Miss Stephenson*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet list all those individuals who have been removed from their employment in the public service of Ontario since July 1, 1985.

(a) the position from which the individual was removed; (b) the individual's present position; (c) the reason for removal, dismissal or redeployment; (d) the present incumbent of the position; (e) the previous employment of the present incumbent; (f) the recruitment procedures employed to choose the present incumbent. *January 29, 1986.*

224. *Mr. O'Connor*—Enquiry of the Ministry—Would the Minister of Housing support the acquisition of a parcel of land, owned by O.H.C., adjacent to the Oakville Senior Citizens' Residence, by the Town of Oakville at a nominal cost, provided the Town absorbs any and all costs to develop a park. Will the Minister follow through on the initiative of the former government, wherein the former Minister of Municipal Affairs and Housing, in a letter dated May 31, 1985, advised that he had directed the Ontario Housing Corporation to discuss this proposal with the Town, with a view to negotiating an acceptable and appropriate settlement, and assure this House that this land will become a park for seniors. *January 29, 1986.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 15

Ms. Bryden—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 16

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. *To be debated Thursday, February 13, 1986.*

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. *To be debated Thursday, February 13, 1986.*

Ballot Item No. 19

Mr. Knight—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

Ballot Item No. 20

Mr. Andrewes—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.

Ballot Item No. 22

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier*.

Ballot Item No. 27

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 15

Ms. Bryden—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 16

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. *To be debated Thursday, February 13, 1986.*

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. *To be debated Thursday, February 13, 1986.*

Ballot Item No. 19

Mr. Knight—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

Ballot Item No. 20

Mr. Andrewes—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.

Ballot Item No. 22

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier*.

Ballot Item No. 27

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

NOTICES

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Friday will appear on each day of the following week.)

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 15

Ms. Bryden—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 16

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. *To be debated Thursday, February 13, 1986.*

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. *To be debated Thursday, February 13, 1986.*

Ballot Item No. 19

Mr. Knight—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary. *To be debated Thursday, February 20, 1986.*

Ballot Item No. 20

Mr. Andrewes—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters. *To be debated Thursday, February 20, 1986.*

Ballot Item No. 22

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier.*

Ballot Item No. 27

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

NOTICES

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 15

Ms. Bryden—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 16

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated Thursday, February 6, 1986.*

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. *To be debated Thursday, February 13, 1986.*

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of

franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

234. *Mr. Mitchell*—Enquiry of the Ministry—Would the Premier table all correspondence, background material and resumes concerning the recent appointment of former Liberal M.P.P., Albert Roy, who will, at \$375 per day, head a committee developing plans for a French language school board in the Ottawa area. How many days of work are contemplated. *February 6, 1986.*
235. *Mr. McNeil*—Enquiry of the Ministry—Would the Premier table all correspondence, resumes and background material concerning the recent appointment of Claude M. Pensa, a high-profile Liberal of London Ontario, to the Board of Governors, University of Western Ontario. Please state the length of the appointment. *February 6, 1986.*
236. *Mr. Sterling*—Enquiry of the Ministry—Would the Premier table all correspondence, background material and resumes which led to the appointment of a former Federal Liberal cabinet minister, Robert Stanbury, to the Workers' Compensation Board. Please state the remuneration and length of the appointment. *February 6, 1986.*

237. *Mr. Dean*—Enquiry of the Ministry—Would the Minister of Revenue please provide the following information with respect to AMO which has been pressing for the extension of market-value assessment to all municipalities in a region or county when a certain number of municipalities have adopted it voluntarily: (1) When is the Ministry going to extend Section 63 property reassessment on a county-wide or regional-wide basis where municipalities request it; (2) What formula for agreement will the Ministry adopt in order that local wishes be recognized; (3) Would the Ministry table any background papers, and has a phasing-in policy over a period of years been considered. *February 6, 1986.*
238. *Mr. Leluk*—Enquiry of the Ministry—Would the Minister of Citizenship and Culture provide the following information regarding the recently announced extension to TVO service to Kenora, Bancroft and Parry Sound bringing total access in the Province to 96% of the population: (1) What commitment will the Minister make to ensure that completion of the network will take place; (2) Will the Minister table the schedule of network extension to areas like Sarnia, Pembroke, New Liskeard and Listowel immediately. *February 6, 1986.*
239. *Mr. Dean*—Enquiry of the Ministry—Would the Minister of Revenue provide information regarding the success of the tax rebate provisions as they have been applied to the managed forest tax reduction programme. Why has similar tax relief not been given to owners of wetlands and similar properties which have ecological significance in order that these properties be preserved. How many owners of wetlands and similar properties of ecological significance are in Ontario. What is the government doing to help preserve these lands. *February 6, 1986.*
240. *Mr. Guindon*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet advise the House what new measures have been instituted to enhance the accountability of the Minister and the Deputy Minister as a result of the Price Waterhouse report entitled "A Study of Management and Accountability in the Government of Ontario". How many and which of the recommendations have been implemented. What specific steps have been taken to ensure that the Manual of Administration is being adhered to. *February 6, 1986.*
241. *Mr. Jackson*—Enquiry of the Ministry—Would the Minister of Government Services inform the House what projects are being planned for the 1986-87 fiscal year to conserve energy in government buildings. What are: (1) their estimated costs; (2) the estimated savings to be realized from reduced energy consumption; (3) the names of the contractors involved and the value of the contracts; (4) the processes employed for the awarding of each contract. *February 6, 1986.*
242. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House how many trade shows, exhibits and seminars with Ontario businesses were undertaken by the Ministry of Government Services in 1985. How many are planned for 1986. Please provide figures as to how many Ontario firms sold goods to the government and their value in 1984-85 and 1985-86. *February 6, 1986.*

243. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House if she has prepared any estimates for the cost of needed restoration to the Legislature Building. What work has been identified as essential and what is the estimated cost of such work. How much has been classified as discretionary and what are those estimated costs. What costs are associated specifically to the introduction of the television in the Legislature. *February 6, 1986.*
244. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House of the number of parcels of land the Minister has identified for potential disposal. What are the sizes and locations of these holdings. What does the Ministry estimate to be the value of each of these holdings. *February 6, 1986.*
245. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services provide the following information regarding a series of surveys which the Ministry undertook in 1984 in municipalities across the Province to document the properties owned and leased by the government; (1) Would the Minister outline the changes she had initiated as a result of the studies; (2) Would the Minister table these surveys. *February 6, 1986.*
246. *Mr. Cousens*—Enquiry of the Ministry—Would the Minister of Agriculture and Food provide the names of all parties that were not exemptions to Ontario Food Guidelines through Official Plan Amendments that were given from July 1, 1985, to December 31, 1985, and the reasons for their exclusion from these exemptions. *February 6, 1986.*
247. *Mr. Bennett*—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology please provide the following information concerning the Minister's trip to California: (1) In what capacity did the Minister undertake this trip; (2) What was the purpose of the trip; (3) When were the final preparations for the trip completed; (4) Would the Ministry provide a copy of the agenda followed by the Minister; (5) Please provide the names and positions of the people who accompanied the Minister; (6) What was the cost of food, travel, entertainment and local transportation; (7) Does the Minister intend to report to the House as to the success of this trip. *February 6, 1986.*
248. *Mr. Stevenson*—Enquiry of the Ministry—Would the Minister of Agriculture and Food inform the House how much money has been paid out to farmers during 1985-86 for assistance for drainage in Ontario. How many municipalities allocate less than the 60% maximum which currently exists. What are the names of these municipalities. *February 6, 1986.*
249. *Mr. Stevenson*—Enquiry of the Ministry—Would the Minister of Agriculture and Food inform the House, as of January 15, 1986, how many applications for assistance under OFFIR had been received, how many payments had been made, the total amount of those payments, the number of applications approved for payment and the amount of those payments, and how many applications had been returned for more information. As of January 15, 1986, what percentage of the applications were from farmers in each of the following commodity groups: (a) dairy; (b) feather industries; (c) fruit and

vegetables; (d) cash crops; (e) tobacco; (f) beef; (g) pork; (h) other. *February 6, 1986.*

250. *Mr. Ashe*—Enquiry of the Ministry—Would the Premier list all of the receptions given by the Premier's Office and all ministries of the government since July 1, 1985. Will the Premier list the nature of the function, the place of the function, the type of group invited and the number of people in attendance and provide details of the costs of each function. *February 6, 1986.*
251. *Mr. Taylor*—Enquiry of the Ministry—Would the Premier table all correspondence, background material and resumes which led to the appointment of Dr. John Hazlett, twice a Liberal candidate in Kingston and the Islands, to the position of Chairman of the Kingston area Health Council. Please state the length of the appointment. *February 6, 1986.*
252. *Mr. Gordon*—Enquiry of the Ministry—Would the Premier table the names of provincial Cabinet ministers and all Liberal backbenchers and their respective staff, who were in Windsor for a two-hour cocktail party in support of the area Liberal fundraising efforts. Which Ministers, Parliamentary Assistants and backbenchers were in Windsor on official business that day. Which Ministers, Parliamentary Assistants and backbenchers, their staff were at the cocktail party but were not on Government business in Windsor. What were the travel arrangements and who paid for their transportation. *February 6, 1986.*
253. *Mr. Bennett*—Enquiry of the Ministry—Would the Premier table in the House an explanation of how he obtained a special postage rate for the mailing of his Christmas cards and what volume is required in order that the rest of the members may enjoy the same savings. *February 6, 1986.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 15

Ms. Bryden—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *To be debated today.*

Ballot Item No. 16

Mr. South—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated today.*

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. *To be debated Thursday, February 13, 1986.*

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. *To be debated Thursday, February 13, 1986.*

Ballot Item No. 19

Mr. Knight—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary. *To be debated Thursday, February 20, 1986.*

Ballot Item No. 20

Mr. Andrewes—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters. *To be debated Thursday, February 20, 1986.*

Ballot Item No. 22

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier.

Ballot Item No. 27

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

NOTICES

GOVERNMENT MOTION

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Debated Thursday, February 6, 1986.*
5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending

Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
 - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Govern-

ment should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.

11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial

spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.

25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
27. *Debated Thursday, February 6, 1986.*
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish par-

ity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.
34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.

35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

Please state the remuneration and length of the appointment. *February 6, 1986.*

237. *Mr. Dean*—Enquiry of the Ministry—Would the Minister of Revenue please provide the following information with respect to AMO which has been pressing for the extension of market-value assessment to all municipalities in a region or county when a certain number of municipalities have adopted it voluntarily: (1) When is the Ministry going to extend Section 63 property reassessment on a county-wide or regional-wide basis where municipalities request it; (2) What formula for agreement will the Ministry adopt in order that local wishes be recognized; (3) Would the Ministry table any background papers, and has a phasing-in policy over a period of years been considered. *February 6, 1986.*
238. *Mr. Leluk*—Enquiry of the Ministry—Would the Minister of Citizenship and Culture provide the following information regarding the recently announced extension to TVO service to Kenora, Bancroft and Parry Sound bringing total access in the Province to 96% of the population: (1) What commitment will the Minister make to ensure that completion of the network will take place; (2) Will the Minister table the schedule of network extension to areas like Sarnia, Pembroke, New Liskeard and Listowel immediately. *February 6, 1986.*
239. *Mr. Dean*—Enquiry of the Ministry—Would the Minister of Revenue provide information regarding the success of the tax rebate provisions as they have been applied to the managed forest tax reduction programme. Why has similar tax relief not been given to owners of wetlands and similar properties which have ecological significance in order that these properties be preserved. How many owners of wetlands and similar properties of ecological significance are in Ontario. What is the government doing to help preserve these lands. *February 6, 1986.*
240. *Mr. Guindon*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet advise the House what new measures have been instituted to enhance the accountability of the Minister and the Deputy Minister as a result of the Price Waterhouse report entitled "A Study of Management and Accountability in the Government of Ontario". How many and which of the recommendations have been implemented. What specific steps have been taken to ensure that the Manual of Administration is being adhered to. *February 6, 1986.*
241. *Mr. Jackson*—Enquiry of the Ministry—Would the Minister of Government Services inform the House what projects are being planned for the 1986-87 fiscal year to conserve energy in government buildings. What are: (1) their estimated costs; (2) the estimated savings to be realized from reduced energy consumption; (3) the names of the contractors involved and the value of the contracts; (4) the processes employed for the awarding of each contract. *February 6, 1986.*
242. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House how many trade shows, exhibits and seminars with Ontario businesses were undertaken by the Ministry of Government Services in 1985. How many are planned for 1986. Please provide figures as to how many Ontario firms sold goods to the government and their value in 1984-85 and 1985-86. *February 6, 1986.*

243. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House if she has prepared any estimates for the cost of needed restoration to the Legislature Building. What work has been identified as essential and what is the estimated cost of such work. How much has been classified as discretionary and what are those estimated costs. What costs are associated specifically to the introduction of the television in the Legislature. *February 6, 1986.*
244. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House of the number of parcels of land the Minister has identified for potential disposal. What are the sizes and locations of these holdings. What does the Ministry estimate to be the value of each of these holdings. *February 6, 1986.*
245. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services provide the following information regarding a series of surveys which the Ministry undertook in 1984 in municipalities across the Province to document the properties owned and leased by the government; (1) Would the Minister outline the changes she had initiated as a result of the studies; (2) Would the Minister table these surveys. *February 6, 1986.*
246. *Mr. Cousens*—Enquiry of the Ministry—Would the Minister of Agriculture and Food provide the names of all parties that were not exemptions to Ontario Food Guidelines through Official Plan Amendments that were given from July 1, 1985, to December 31, 1985, and the reasons for their exclusion from these exemptions. *February 6, 1986.*
247. *Mr. Bennett*—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology please provide the following information concerning the Minister's trip to California: (1) In what capacity did the Minister undertake this trip; (2) What was the purpose of the trip; (3) When were the final preparations for the trip completed; (4) Would the Ministry provide a copy of the agenda followed by the Minister; (5) Please provide the names and positions of the people who accompanied the Minister; (6) What was the cost of food, travel, entertainment and local transportation; (7) Does the Minister intend to report to the House as to the success of this trip. *February 6, 1986.*
248. *Mr. Stevenson*—Enquiry of the Ministry—Would the Minister of Agriculture and Food inform the House how much money has been paid out to farmers during 1985-86 for assistance for drainage in Ontario. How many municipalities allocate less than the 60% maximum which currently exists. What are the names of these municipalities. *February 6, 1986.*
249. *Mr. Stevenson*—Enquiry of the Ministry—Would the Minister of Agriculture and Food inform the House, as of January 15, 1986, how many applications for assistance under OFFIR had been received, how many payments had been made, the total amount of those payments, the number of applications approved for payment and the amount of those payments, and how many applications had been returned for more information. NOTICES

GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
 - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.

11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services,

so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.

25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.
34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should

introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

How many days of work are contemplated. *February 6, 1986.*
235. *Mr. McNeil*—Enquiry of the Ministry—Would the Premier table all correspondence, resumes and background material concerning the recent appointment of Claude M. Pensa, a high-profile Liberal of London Ontario, to the Board of Governors, University of Western Ontario. Please state the length of the appointment. *February 6, 1986.*
236. *Mr. Sterling*—Enquiry of the Ministry—Would the Premier table all correspondence, background material and resumes which led to the appointment of a former Federal Liberal cabinet minister, Robert Stanbury, to the Workers' Compensation Board. Please state the remuneration and length of the appointment. *February 6, 1986.*
237. *Mr. Dean*—Enquiry of the Ministry—Would the Minister of Revenue please provide the following information with respect to AMO which has been pressing for the extension of market-value assessment to all municipalities in a region or county when a certain number of municipalities have adopted it voluntarily: (1) When is the Ministry going to extend Section 63 property reassessment on a county-wide or regional-wide basis where municipalities request it; (2) What formula for agreement will the Ministry adopt in order that local wishes be recognized; (3) Would the Ministry table any background papers, and has a phasing-in policy over a period of years been considered. *February 6, 1986.*
238. *Mr. Leluk*—Enquiry of the Ministry—Would the Minister of Citizenship and Culture provide the following information regarding the recently announced extension to TVO service to Kenora, Bancroft and Parry Sound bringing total access in the Province to 96% of the population: (1) What commitment will the Minister make to ensure that completion of the network will take place; (2) Will the Minister table the schedule of network extension to areas like Sarnia, Pembroke, New Liskeard and Listowel immediately. *February 6, 1986.*

239. *Mr. Dean*—Enquiry of the Ministry—Would the Minister of Revenue provide information regarding the success of the tax rebate provisions as they have been applied to the managed forest tax reduction programme. Why has similar tax relief not been given to owners of wetlands and similar properties which have ecological significance in order that these properties be preserved. How many owners of wetlands and similar properties of ecological significance are in Ontario. What is the government doing to help preserve these lands. *February 6, 1986.*
240. *Mr. Guindon*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet advise the House what new measures have been instituted to enhance the accountability of the Minister and the Deputy Minister as a result of the Price Waterhouse report entitled "A Study of Management and Accountability in the Government of Ontario". How many and which of the recommendations have been implemented. What specific steps have been taken to ensure that the Manual of Administration is being adhered to. *February 6, 1986.*
241. *Mr. Jackson*—Enquiry of the Ministry—Would the Minister of Government Services inform the House what projects are being planned for the 1986-87 fiscal year to conserve energy in government buildings. What are: (1) their estimated costs; (2) the estimated savings to be realized from reduced energy consumption; (3) the names of the contractors involved and the value of the contracts; (4) the processes employed for the awarding of each contract. *February 6, 1986.*
242. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House how many trade shows, exhibits and seminars with Ontario businesses were undertaken by the Ministry of Government Services in 1985. How many are planned for 1986. Please provide figures as to how many Ontario firms sold goods to the government and their value in 1984-85 and 1985-86. *February 6, 1986.*
243. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House if she has prepared any estimates for the cost of needed restoration to the Legislature Building. What work has been identified as essential and what is the estimated cost of such work. How much has been classified as discretionary and what are those estimated costs. What costs are associated specifically to the introduction of the television in the Legislature. *February 6, 1986.*
244. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House of the number of parcels of land the Minister has identified for potential disposal. What are the sizes and locations of these holdings. What does the Ministry estimate to be the value of each of these holdings. *February 6, 1986.*
245. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services provide the following information regarding a series of surveys which the Ministry undertook in 1984 in municipalities across the Province to document the properties owned and leased by the government; (1) Would

the Minister outline the changes she had initiated as a result of the studies;
 (2) Would the Minister table these surveys. *February 6, 1986.*

246. *Mr. Cousens*—Enquiry of the Ministry—Would the Minister of Agriculture and Food provide the names of all parties that were not exemptions to Ontario Food Guidelines through Official Plan Amendments that were given from July 1, 1985, to December 31, 1985, and the reasons for their exclusion from these exemptions. *February 6, 1986.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.

Ballot Item No. 19

Mr. Knight—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

Ballot Item No. 20

Mr. Andrewes—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.

Ballot Item No. 22

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier.*

Ballot Item No. 27

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

NOTICES

GOVERNMENT MOTIONS

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
18. *Mr. Nixon*—Resolution—That the order of precedence for Private Members' Public Business existing at the time of prorogation be continued in the Second Session of this Parliament.
19. *Mr. Nixon*—Resolution—That, notwithstanding the prorogation of the House, all Government Bills and Orders, Private Members' Public Bills and Orders, Private Members' Motions, Questions, Bills referred to Select and Standing Committees and Matters referred to Standing Committees remaining on the *Orders and Notices* paper at the prorogation of the First Session of this Parliament be placed on the *Orders and Notices* paper on the second Sessional day of the Second Session of the 33rd Parliament at the same stage as at prorogation; And, that all legislation be deemed to have been introduced, read the first time, read the second time and, where applicable, referred to a committee, as the case may be, on the first day of the Second Session.
20. *Mr. Nixon*—Resolution—That the 1985-86 Estimates and Supplementary Estimates which have not yet been passed by the committees and reported to the House be deemed to be passed, and that all of the 1985-86 Estimates and Supplementary Estimates be deemed to be concurred in.

NOTICE OF MOTION OF REASONED AMENDMENT

Mr. Grossman—Notice of Reasoned Amendment—That Bill 94, An Act regulating the Amounts that Persons may Charge for rendering Services that are Insured Services under the Health Insurance Act be *NOT* now read a second time, but be referred back to the Premier and the Minister of Health with instructions to enter into immediate discussions with the affected health care providers with a view:

—to repairing the damage which has been done to the fabric of the province's health care system;

—to closing the chasm which the Government has fostered between it and health care providers; and

—to providing all Ontarians with full accessibility to quality health care;

As:—the Government has chosen confrontation with health care providers instead of negotiation and discussion;—the number of opted-out physicians is at an all-time low;—the passage of Bill 94 may result in physicians, including some highly-trained specialists, leaving Ontario thereby creating shortages of such health care providers in parts of the province;—the draconian penalties set out in Bill 94 are anathema to the sense of reason and justice inherent in our society;—requests for financial assistance from district health

councils, hospitals, homes for the aged, chronic care, cancer treatment, and other health care facilities are not being met because of the Government's preoccupation with its non-negotiable position concerning Bill 94;—the monies to be released to Ontario by the Federal Government for the banning of extra-billing will be vastly exceeded by anticipated increases in the OHIP fee schedule for physicians and dentists, costing Ontario taxpayers \$100-\$150 million which could be spent on active treatment and chronic care beds, cancer treatment, and improved medical care; and—the proposed legislation has attracted widespread criticism, even from a Liberal member of the Assembly who has called it "excessive and ill-advised".

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
 - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.

11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services,

so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.

25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.
34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should

introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

QUESTIONS

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.

Ballot Item No. 19

Mr. Knight—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

Ballot Item No. 20

Mr. Andrewes—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.

23. *Mr. Nixon*—Resolution—That substitution be permitted on the standing and select committees authorized to meet during the Recess between the First

and Second Sessions provided that written notice of substitution is given to the Clerk of the Committee before the Committee meets or in the first thirty minutes after the Committee meeting is called to order.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
 - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.

11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services,

so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.

25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.
34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should

introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)

Ballot Item No. 17

Mr. Villeneuve—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.

Ballot Item No. 18

Mr. Morin-Strom—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.

Ballot Item No. 19

Mr. Knight—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

Ballot Item No. 20

Mr. Andrewes—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
